

Heart Balloons Card Instructions

The best part about this cute sparkly card would be the ease and simplicity to create. Kids can easily make this one, the biggest effort is deciding the sweet message to write. I put three heart cutouts on my card, but feel free to add as many as you'd like or keep it simple with one or two. Get creative with a sweet message of your own or stick with "I Love You". These sparkly hearts make for a pretty clean look.

Supplies:

- Paper
- Glittery Foam Heart Cutouts
- Black Fine Tip Marker
- Glue
- Scissors

Instructions:

1. Fold paper in half and cut to desired size.
2. Glue foam heart cutouts anywhere on the front cover of the card (be sure to leave enough space below the heart to draw the string of the balloon).
3. Use your black fine tip marker to create the "string" (add a tiny triangle shaped nub for the balloon tie at the start of the "string").
4. Write a sweet Valentine's Day message anywhere on the front cover, and you're done!
